

# Meet Frannie

Frannie is a 9- year young smooth coat, black and tan female mini dachshund, weighing about 9 lbs. She is spayed, up to date on all of her vaccinations, heartworm negative, and just had a dental with some extractions. Frannie is a sweet natured dog and was loved in her previous home. She likes to give kisses and play with her new foster home friend. You would never guess she is nine years old by her energy and playfulness. Frannie is fine with cats and we don't know about children. She is a little frightened of big dogs and overplayful puppies. She needs a really good home that will work with her housetraining issues so please consider this special girl to be a part of your family. Be ready to get lots of puppy dog kisses when you meet her!

**She is available to an approved adoptive home.**
